Pick-up

Pick up the cake box from the bottom, not from the sides. This will keep the cake from getting damaged or being dropped.

Delivery

Transport the cake in an air-conditioned vehicle and keep it level at all times.

Storage

Keep the cake refrigerated, and store leftovers in an airtight container.

Serving

To get the best flavor and texture, take the cake out of the fridge and let it sit at room temperature for 45 minutes to an hour before serving.

Display

Keep the cake away from sunlight and heat, and ensure that the cake stand and table are steady if bumped.

Cutting

Put the knife under hot water or place it in a pot of boiling water, then dry it before cutting the cake.
